

## **CHIs X-Gen Congress**

### Description:

Cambridge Healthtech Institute is proud to launch The X GEN Congress to enable this genomic revolution. This five conference week-long event will demonstrate the unique cross fertilization of established genomic technologies with Now-Generation Sequencing and Quantitative PCR along with exciting applications of Copy Number Variation and Epigenetics. In addition, you will learn why data is the driving force that enables discovery at Sequencing Data Storage and Analysis.

Country: United States

City/Suburb: San Diego
